

Simply smarter.

Maximum performance. Minimal impact.

Open up the new **Navien PEM750** at navien.co.uk

 **navien**

Meet the future.

Next-generation **R290** heat pump technology.

Renewable heating has never looked so good. The **Navien PEM750** brings the latest South Korean thinking to the UK, so you can help your customers discover eco-friendly heating that's simply smarter.

Renewable meets reliable

With an A+++ ErP rating and a SCOP range of up to 4.86, the **PEM750** is designed for robustness and efficiency, packed with smart technology to help drive down carbon without compromising performance.

Quietly beautiful

The **PEM750** has an operating noise level of just 42db – about the same as a refrigerator. A bigger performance than you'd imagine, from a system that's quieter than you'd expect.

Precision remote control

The **PEM750** can be controlled remotely through smart technology and a dedicated app, making it easier to achieve perfect comfort levels while cutting energy usage and costs.

Easily adaptable

The **PEM750** can be effortlessly integrated into both new build and retrofit properties – with our new wiring centre and a wide range of adjustable parameters making even the most bespoke installation simple, neat and efficient.

Smart service

Enjoy the full support of our UK team. Expert training, rapid technical support, exclusive loyalty rewards – all to help you install with confidence, deliver great service and grow your business.

Smarter savings

Between UK Government grants and long-term savings, it's the perfect time to boost your business by helping your customers futureproof their homes, save money and drive down their impact.

There's more inside.

Designed for exceptional performance.

The **PEM750** is packed with technologies that benefit both planet and performance, including R290 refrigerant: ideal for high-temperature operation, with a lower Global Warming Potential (GWP) than R32. Let's look at the full technical details...

Technical Data			PEM750V004PGKC	PEM750V006PGKC	PEM750V008PGKC	PEM750V010PGKC	PEM750V017PGKC
